9. Troubleshooting & FAQ Guide

> **ZOOM** **VISUAL NAVIGATION GUIDE**
>
> Look for **ZOOM** boxes and ➔ indicator arrows throughout this manual to locate buttons, modals, dropdown filters, and status toggles on your screen.

1. QUICK ACCESS — QUICK SETTINGS

Route / Trigger: `/admin/settings/quick` or **Quick Settings** Sidebar Button.

- ➔ **Theme Color Selector:** Toggle between Microsoft Blue, Indigo, Emerald, Purple, and High-Contrast Dark themes.
- ➔ **Audio Chime Controls:** Configure volume and tone for Queue Display announcements.
- ➔ **Auto-Refresh Rate:** Set polling frequency for live queues and interview room cards (30s, 60s, 5m).

2. MAIN MODULE

2.1 Dashboard (`/recruiter/dashboard` & `/admin/dashboard`)

- ➔ **Metric Cards:** Total Applicants, Waiting Queue, In-Progress Interviews, Hired, and Failed counters.
- ➔ **Live Activity Feed:** Real-time event log displaying candidate submissions and room stage updates.

2.2 Forums (`/forums`)

Internal discussion boards for recruiters and validators to post candidate notes, interview tips, and account updates.

2.3 Calendar (`/calendar` & Daily Calendar Overlay)

Visual calendar scheduling candidate interview slots, room bookings, and Ops Validator availability calendars.

2.4 My Tasks (`/my-tasks`)

Personal checklist for recruiters and validators detailing pending candidate evaluations, room assignments, and deadline alerts.

2.5 Profile (`/profile` & Workbench Tab)

User profile management page to update full name, email, avatar image, password, and view assigned target accounts.

3. RECRUITMENT — APPLICANT TRACKER

3.1 Application Management (`/recruiter/applicant-management`)

Central candidate intake workspace with high-density table layout, inline editing, and filter toolbar.

- ➔ **Target Account Filter:** Filter candidates by assigned account (*DoorDash, Enercare, Keller Postman, etc.*).
- ➔ **Operations Validator Filter:** Filter candidates assigned to specific Ops Validators.
- ➔ **Stage Status Pills:** Filter by stage (*Applied, Typing Test, Initial Interview, Assessment, Final Interview, Hired, Failed*).

CREATE CANDIDATE

Figure 3.1: High-Density Applicant Masterlist with Account & Operations Validator Filters.

3.2 Interview Form (`/recruiter/tracker/interview-form`)

Full-screen standalone interview form for scoring candidate competencies, logging question notes, and selecting verdicts.

3.3 Masterlist (`/recruiter/tracker/masterlist`)

Global repository for candidate records with Excel import/export engines, bulk status updates, and archive tools.

3.4 For Ops Val Scheduling (`/recruiter/scheduling`)

Dedicated booking calendar to schedule candidates for final interviews with Ops Validators for target accounts.

4. RECRUITMENT — INTERVIEW MANAGEMENT

4.1 Interview Rooms (`/recruiter/interview-rooms`)

Manage Onsite and Online interview rooms with real-time status indicators (`AVAILABLE` vs `OCCUPIED`).

> **ZOOM** **DUAL-ROLE INTERVIEWER SELECTOR**
>
> 1. Click **[Recruiter]** or **[Ops Validator]** role pill.
> 2. **Recruiter Mode:** Lists ONLY recruiters (Ops Validators strictly excluded).
> 3. **Ops Validator Mode:** Asks for **Target Account** first, then dynamically displays Ops Validators assigned to that account.

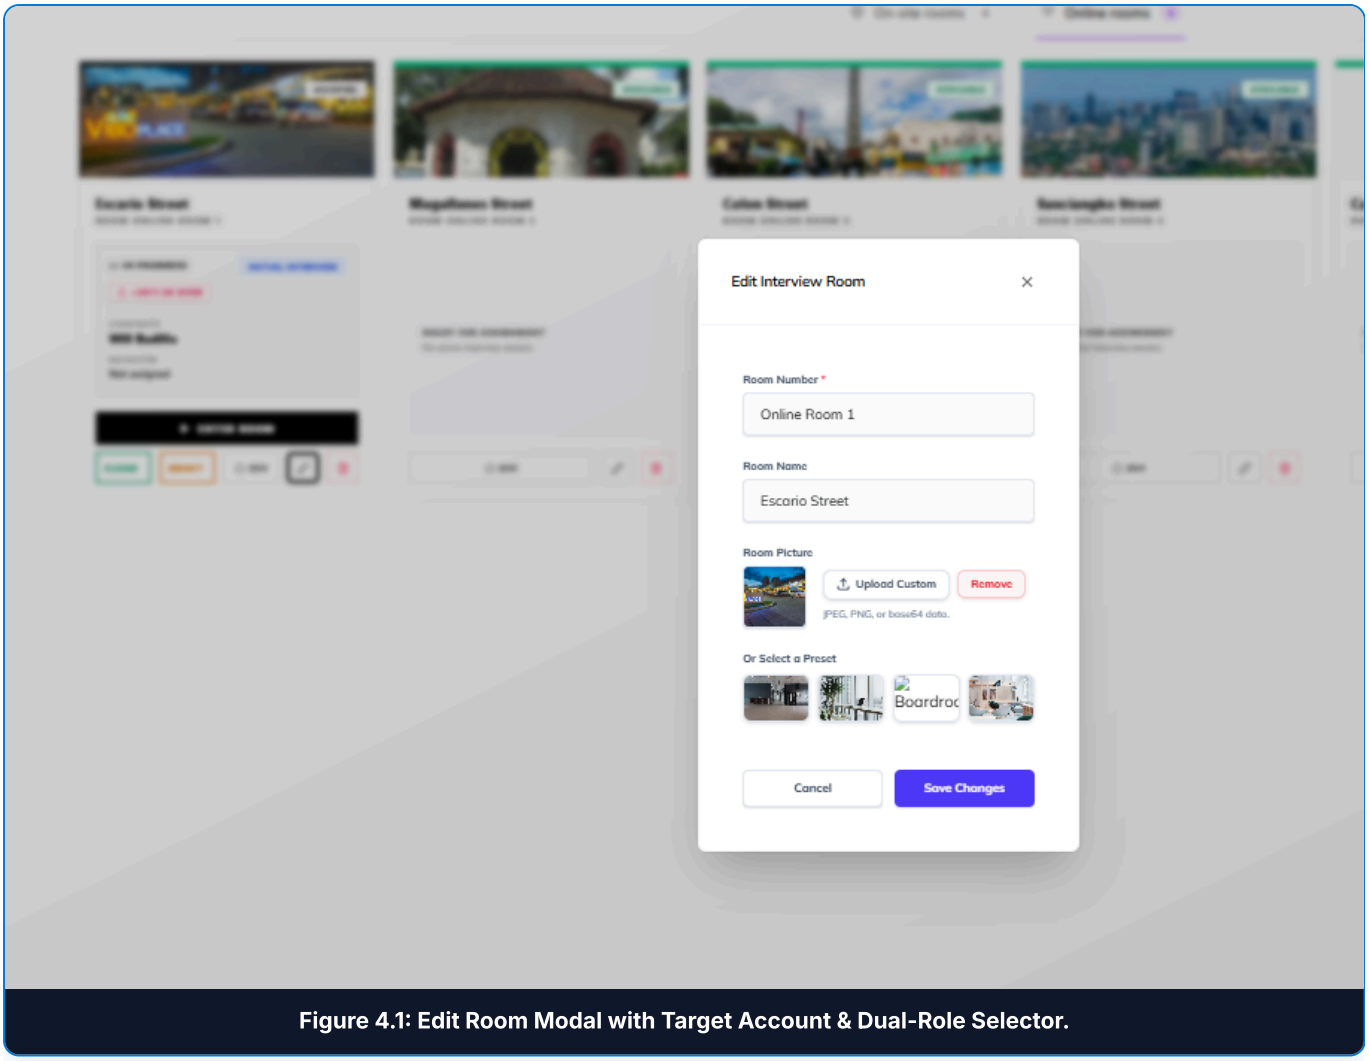

Figure 4.1: Edit Room Modal with Target Account & Dual-Role Selector.

4.2 Queue Console (`/recruiter/queue-control`)

Manage candidate token calling for Initial and Final interview queues, broadcast token calls to Queue Display (`/queue-display`).

5. RECRUITMENT — HIRING & ACCOUNTS

5.1 Job Postings (`/job-postings`)

Public job board detailing active positions, department tags, requirement badges, and application form triggers.

5.2 Accounts & Support (`/admin/accounts`)

Client accounts management portal to configure target account lists, hiring quotas, and sub-account divisions.

6. INSIGHTS — REPORTS

6.1 Report Dashboard (`/recruiter/reports` & `/guest/account-analysis`)

Edge-to-edge executive dashboard displaying hiring quota progress, candidate pass rates, and endorsement metrics.

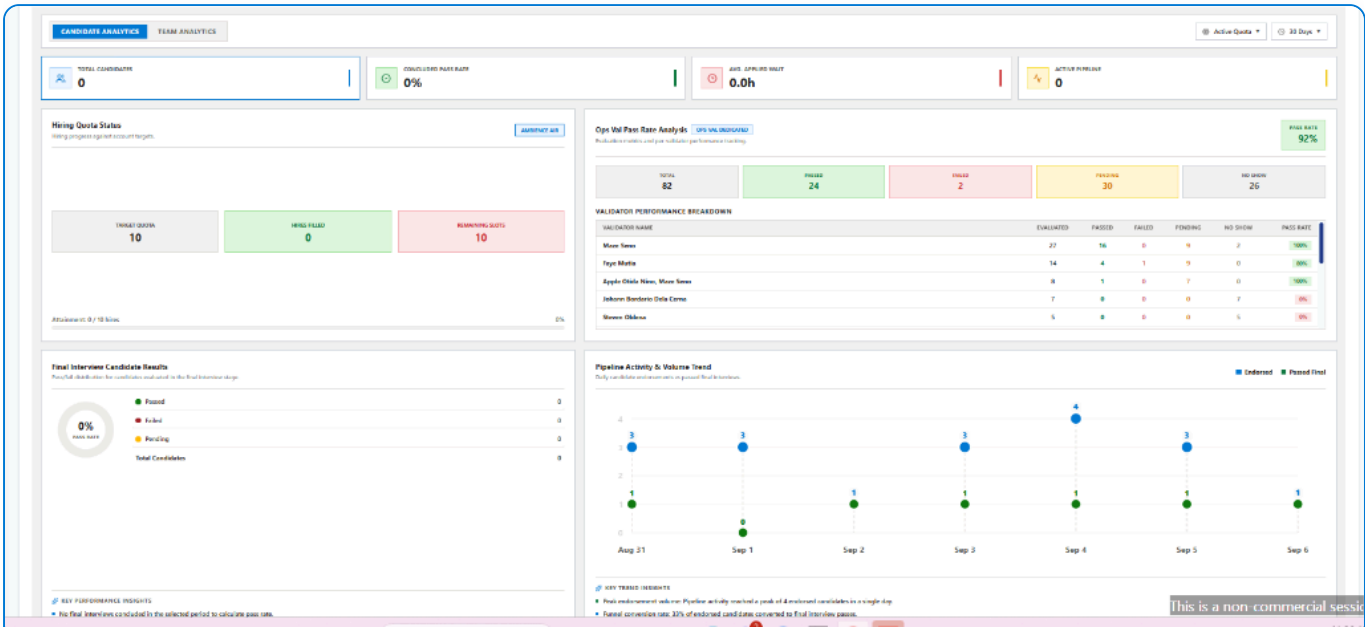

Figure 6.1: Edge-to-Edge Account Analytics & Hiring Quota Dashboard.

6.2 Tests Tracker (`/recruiter/tracker/tests`)

Track applicant typing test performance (WPM, Accuracy %, duration, error count) with pass/fail indicators.

6.3 Employee Tracker (`/admin/employee-tracker`)

Internal employee directory displaying employee IDs, department allocations, roles, and status.

6.4 Security Logs (`/admin/audit-logs`)

Security audit log tracking user logins, candidate status edits, room updates, and permission changes with IP & timestamps.

7. SYSTEM & REFERENCES — MHRT

The MHRT module (`/recruiter/mhrt`) manages headcount-to-revenue requisitions across 6 sub-tabs:

- ➔ **H2R Creation Tab:** Submit headcount requisition requests for client accounts.
- ➔ **H2R Division Tab:** Allocate requisitions to specific operational divisions.
- ➔ **Accounts Tab:** Link client account codes to headcount budgets.
- ➔ **Salary Tab:** Configure pay bands, compensation rates, and budget ranges.
- ➔ **Assigned Time Off Tab:** Log schedule exceptions, holidays, and leave allotments.

➔ **Directory Tab:** Access contact directory for MHRT account leads.

8. SYSTEM & REFERENCES — CRM SETTINGS

Administrative system setup (`/admin/settings`) comprising 7 sub-tabs:

Setting Tab	Icon	Configuration Scope & Description
Question Bank	📖	Manage interview evaluation questions, scoring weights, and rubrics.
Typing Test	📈	Configure typing test prompts, time limit (60s), and minimum passing WPM score.
Email Templates	✉️	Edit automated candidate email notifications, JO letters, and invitation emails.
AI Settings	🤖	Configure AI evaluation assistant prompts, automated feedback toggles, and criteria.
Active Tasks	⚡	Monitor active system background jobs, database sync tasks, and socket workers.
Backups	💾	Create full database backups, restore system state, and clean ghost records.
User Management	👥	Create employee accounts, assign roles (`recruiter_a`, `ops_validator`, `admin`), scope account permissions.

9. TROUBLESHOOTING & FAQ GUIDE

Symptom	Root Cause	Resolution Action
UI changes not reflecting	PWA Service Worker cache	Perform hard refresh `Ctrl + Shift + R`.
Ops Val missing in room edit	Department account unassigned	In CRM Settings → User Management, update user department to include account name.
Cannot delete room	Room is currently OCCUPIED	Click **Clear Room** first, then delete.
